

COVID 19 – CLOSED MEETING ZONE

© CAP Solutions

The most important facts at a glance

In times of even longer lasting measures of the Federal Government to slow down the spread of the Covid 19 virus, especially the risk groups have to be well protected. These include people in the over-70 age group, who often spend their old age well looked after in nursing homes. In order to make visits possible nevertheless, we have "Covid 19- closed meeting zone" Here a visit can take place without physical contact and without the transmission of dangerous droplets.

The "Covid 19- closed meeting-zone" is a modular system of sound-absorbing wall and ceiling panels, a safety glass pane as protection against droplet infection and a partition wall as well as 2 storage boards. Ceiling lights and ventilation are integrated and switch on and off automatically via presence detectors. The "Covid 19-closed meeting zone" can be set up and dismantled in a very short time, and if necessary can be used later without the partition wall panel. It can also be easily converted into a small office.
